

Hubble Space Telescope

The Hubble Space Telescope (HST) exhibit is designed to introduce the viewer to the mission and accomplishments of the HST. Hubble has been orbiting the earth at an altitude of about 370 miles since it was released by the Space Shuttle Discovery in April 1990. The exhibit is updated periodically to reflect the current status and exciting discoveries of the HST.

exhibit data sheet

General Specifications

Dimensions:

- 2' x 6'

Electrical Requirements:

- One 110 Volt 20 Amp drop

Value for Insurance:

- \$3,000

Special Notes

- This exhibit is suitable for indoor use only
- See Exhibits Web site below for required application form, loan agreement and contact information:
<http://outreach.msfc.nasa.gov/>

Assembly Specifications

Assembly Equipment Required:

- Forklift for crates
- Pallet jack
- Various hand tools

Labor Required:

- Two people

Assembly Time:

- Approximately one hour

Assembly Notes:

- Instructions for assembly/setup are included
